

Q1 - It was easy to start learning a language on Duolingo.

Q2 - It was easy for me to understand what I did wrong after an incorrect answer.

Q3 - Do you think the Duolingo app is accessible? Why or why not?

Do you think the Duolingo app is accessible? Why or why not?

Could not find any settings for it.

because

no, i can not use duolingo without internet

It is accessible as as there is can't listen now option.

Yes, because i can change the settings of different features

Yes, I was able to download it and run it

yes

.. sort of. Initially when learning a language, basic words and lessons are not as difficult, and you get less wrong answers. However as you learn more and questions get more difficult you can often find yourself unable to complete a lesson before you run out of lives, limiting both your progress and learning. In essence when starting out on learning a language, the app is quite accessible, however later on it is only accessible to those who can afford to pay

Kinda. It can be used one handed, but for first timers, it can be confusing to find the settings to change preferences or access accessibility

Yes, it is quite easy to navigate and learn using it tools.

what mean by accessible?

Yes, Very Accessible

Kinda

Yep, easy to use

Yes, I think the Duolingo app is accessible because it has a simple interface, clear icons, and easy navigation. The lessons are short and interactive, which makes it easy for users t learn and use the app without difficulty.

It is accessible because it uses a simple interface, including clear icons and easy-to-understand words.

With haptic feedback, easy icons and sound effects i think it is an accessible app.

I think the Duolingo app is accessible, it's easy to install, to create an account, and easy to start learning right away.

Yes, very accessible

Yes, the only thing that it doesn't fully cater to is those that are visually impaired, but the web version may have the option to incorporate web extensions that have a solution to this.

Q4 - I find the Duolingo app colours, animations, and layout, appealing.
